EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Flindt (Reg. No. 42,539), the undersigned, on January 06, 2006. The application has been amended as follows:

IN THE CLAIMS:

Claims 8 and 21 have been amended.

Claim 8 has been amended as follows:

8. (Currently Amended) A method comprising:

receiving a plurality of unique constituting elements of a data structure transmitted in a pre-determined order [[:]] **based at least in part on the occurrence frequencies of said unique constituting elements;**

inferring a plurality of corresponding cookie representations for the received unique constituting elements in accordance with their manner of transmissions under the pre-determined order of transmission [[:]] **,the plurality of corresponding cookie representations not having been received together with said received unique constituting elements;** and

receiving the constituting elements of the data structure in a representative form encoded with cookie representations.

Claim 21 has been amended as follows:

21. (Currently Amended) An apparatus comprising:

storage medium having stored therein a plurality of programming instructions designed to receive a plurality of unique constituting elements of a data structure transmitted in a pre-determined order based at least in part on the occurrence frequencies of said unique constituting elements, to infer a plurality of corresponding cookie representations for the received unique constituting elements in accordance with their manner of transmissions under the pre-determined order of transmission, the plurality of corresponding cookie representations not having been received together with said received unique constituting elements, and to receive the constituting elements of the data structure in a representative form encoded with cookie representations; and

at least one processor coupled to the storage medium to execute the programming instructions.

REASONS FOR ALLOWANCE

3. Claims 1-4, 6-8, 10-16, 18-21 and 23-26 are allowable over the prior art of record.

4. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e). In this case, the substance of applicant's arguments in Appeal Brief filed on 11/30/2005 with respect to the amended claim limitations point out the reason claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip B. Tran whose telephone number is (571) 272-3991. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

7. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
